★ Projects

Forms Project, HTML&CSS , Javascript , MySQL , PHP

Award Winning Project (forms Project) : i won an award for Best innovative forms project in which i created a horror/scary forms project called Death Note , inspired from the movie death note

MyParking, HTML&CSS , Javascript , MySQL , PHP

MyParking is a project we created to help people find parking spots using other peoples parking spaces , in which if a person has a free parking space available , he can upload it to MyParking website and other people can view the location and at which times this parking spot is available.

MrDog

MrDog is a project we worked on and designed using moqups, its a project where it helps customers locate their dogs using a collar , each collar has an nfc tag that it can be scanned using our app , in case a dog was lost, there are instructions on the collar for the people who finds them to help them locate the owner , where they download our app , scan the nfc tag , and then they can contact the owner

Events manager Project, HTML&CSS , Javascript , MySQL , PHP

events manager project , in which we can book an event , hire crew , view salaries , calculate meal costs , using html&css , php , MySql
